🐦 [Kev_Conti](#) 🌐 [KevinConti](#) [in](#) [Kevin Conti](#)

Kevin grew up in Buffalo, NY before earning a degree in Computer Science from the University of North Carolina at Wilmington. He is a life-learner who loves to build his knowledge of new languages, frameworks, and software design patterns.

While Kevin has a passion for development, he also has a holistic education in sales, marketing, product, and customer support from his time working as a founder at his own startup.

Outside of work, he enjoys living in South Florida, where he can bask in the warmth and sun - a BIG upgrade over the Buffalo weather he grew up with!.

WORK EXPERIENCE (3)

Technical Founder at Kevin Conti Enterprises LLC January 2019 - Current

elixir / phoenix svelte / sveltekit javascript / typescript sales marketing leadership ai gpt-3

As both a part-time, then later full-time endeavor, Kevin founded Kevin Conti Enterprises LLC as a holding company for his collection of projects. Throughout his time working on software and software-related projects, Kevin was responsible for:

- Coding four codebases from scratch and maintaining them in production.
- Personally selling over \$150,000 worth of product over roughly two years, with no BDRs or outside assistance.
- Managing a team of multiple long-term contractors, learning how to be a good employer, manager, and leader.

Software Developer at SoftPro January 2020 - March 2021

okta terraform microsoft azure ci/cd c# .net core 3 / .net 5

SoftPro is the most trusted provider of real estate closing, title and escrow software, with over 14,000 customer sites and 60,000 users nationwide. At SoftPro, Kevin was responsible for:

- Participating in discussions to architect SoftPro's newest cloud-based offering, internally referred to as Project Intrepid.
- Write code to develop features, fix bugs, and create proof-of-concept prototypes across multiple projects, primarily using C# and .NET framework.
- Integrating Okta's authentication platform into multiple applications to modernize SoftPro's security and user authentication experience.

Technical Analyst at Credit Suisse June 2018 - January 2020

c# groovy javascript pm

Credit Suisse is a Fortune Global 500 company that specializes in asset management and investment banking for clients. As as Technical Analyst for Credit Suisse, Kevin was responsible for:

- Leading a team of nine technical analysts to define, design, and deploy a new solution for the Risk Metrics devision.
- Acting as the Lead Developer for a six-developer project for the Amelia AI team, migrating their AI-based support bot to a chat-overlay client that greatly increased the accessibility of the Amelia help bot
- Saved Credit Suisse an estimated \$2M/year in support and maintenance expenses by acting as the primary developer for a C# middleware service.

PROJECTS (2)

CoderNotes

<https://codernotes.io/>

lead developer designer marketer

- ProductHunt #2 Product of the Day
- Developed using modern web development technologies such as front-end JavaScript frameworks, back-end APIs, and integrations with 3rd-party APIs

Software Ideas

<https://softwareideas.io>

lead developer designer marketer

- Acquired over 1,000 paying customers.
- Responsible for three production codebases, from a simple marketing website in Laravel/PHP to a complex members-only web application.
